WHEREAS, the costs associated with extreme weather events and destabilized weather patterns are burdening businesses, taxpayers, municipal budgets, and families; and

WHEREAS, the Northeast is already experiencing warming temperatures, heavier downpours and increased precipitation<sup>1, 2</sup>; and

WHEREAS, increasing and unpredictable temperatures and rainfall are threatening our region's trout, salmon, and other fisheries; maple sugaring operations, the winter sports and tourism industries, and agriculture<sup>3</sup>; and

WHEREAS, the United States Congress has the responsibility to act swiftly and effectively on the issue of climate change; and

WHEREAS, destabilized weather patterns, extreme weather events and other serious impacts are driven by greenhouse gas emissions from fossil fuels, and a major shift away from such carbon fuels is a cornerstone to any meaningful response;<sup>11</sup>, <sup>12</sup>and

WHEREAS, a steadily increasing fee or tax on fossil fuels at the point of their entry into the economy (the well, mine, or point of importation) would be a straightforward way to make effective use of free market mechanisms to promote the transition to greater energy conservation and renewable sources of energy<sup>13</sup>; and

WHEREAS, a rebate of all of the revenue generated by the fee to all United States Residents, in equal shares, would mitigate the impact of rising energy prices for all households and generate many new clean energy jobs, while potentially improving the overall economy<sup>14</sup>;

NOW, THEREFORE, BE IT RESOLVED, that the Common Council of the City of Plattsburgh calls on our representatives in the United States Congress to address climate change by adopting as one important measure, among others, the Economic Innovation and Carbon Dividend Act (EICDA; H.R. 763) as the foundation for sound, effective, National Policy.
